### Free Tutoring for Your Child!

Dear Parent/Guardian,

Help your child succeed in school – sign up for free tutoring! This is a great opportunity to help your child in school without any cost to you. As a result of the federal No Child Left Behind (NCLB) Act, your child can receive Supplemental Educational Services/ academic tutoring to help him or her do better in school.

You can choose a tutoring program that best meets your child's needs from the list of approved Supplemental Educational Services (SES) providers in your area. The program will provide your child with tutoring that is coordinated with what is being taught in school and may help improve your child's academic skills. Research from the federal government has shown that students who participated in this free tutoring program made significant gains in student achievement, and those students who participated in multiple years did even better.

The list of SES providers/tutoring programs gives you a description of each program, qualifications of the tutors, and information about each program's effectiveness. It also indicates the programs that serve students with disabilities or limited English proficiency.

When deciding which SES provider/tutoring program is best for your child, you may want to ask these questions:

- When and where will the tutoring take place (at school, home, a community center)?
- How often and for how many hours in total will your child be tutored?
- What programs, by grade levels and subject areas, are available for your child?
- What type of instruction will the tutor use (small group, one-on-one, or on the web/internet)?
- What are the tutors' qualifications?
- Can the tutor help if your child has a disability or is learning English?
- Is transportation available to and from the location where the tutoring will take place?

Please call Kim Weik if you have any questions about SES providers/tutoring programs. Enclosed is a list of frequently asked questions with answers that should help you better understand SES.

Please fill out the enclosed Provider Selection Form and send back to Crystal City Elementary. Please indicate your first, second, and third choice of providers. Provider Selection Forms are due in the school office by March 13, 2012. After you submit your form, you will receive a letter from by the end of the month telling you when the SES/free tutoring will start.

Thank you.

Kim Weik

Principal, Crystal City Elementary

Complete the information below and return this form to the office by March 13, 2012.

# Supplemental Educational Services Provider Selection Form

I have reviewed the information about SES/tutoring providers approved by the

## Supplemental Educational Services (SES)

## Frequently Asked Questions and Answers

The following questions and answers may help you understand more about SES.

## 1. What are Supplemental Educational Services (SES)?

SES are tutoring sessions offered outside the regular school day – usually before or after school, on weekends, or in the summer.

The federal law states that only low-income students, those eligible for free or reduced lunch, attending 2. Who may receive SES? a Title I building in a school improvement status are eligible for SES. If we cannot provide SES for all requests submitted, priority is given to the lowest- achieving of these students.

Organizations apply to the Missouri Department of Elementary and Secondary Education to be a 3. Who does the tutoring? provider on Missouri's list. After the review process, the list of approved SES/tutoring providers is updated. The list of providers may change from year to year. Enclosed is a list of current SES providers serving our area with a brief summary of their services.

The school district/LEA will pay for the tutoring. Each child will receive an average of 40 to 60 hours 4. Who pays for the tutoring? of tutoring during the school year, depending on the fees charged by the provider the parents request.

# 5. Who decides on which SES provider my child will have?

Parents choose from the state's list of approved providers, and we try to meet your first choice. An agreement must be reached and signed by all parties - the school district, provider, and parents - before services can begin.

It will begin as soon as possible in the first semester after the agreement is signed by all parties. 6. When does the tutoring begin?

Some may be, and some may not. That is part of the agreement between the school and the provider. 7. Are the tutoring sessions at our school? If the tutoring is provided on another site, such as a community center, library, or the provider's site, parents may be responsible for transportation.

# 8. How often and for how many hours will my child be tutored?

The time will vary with different providers. On average, students will have two tutoring sessions a week with each session lasting an hour or two.

# 9. Can the tutors help a child who has disabilities or is learning English?

Some SES providers have tutors specially trained to work with these children, and it is noted in the provider's summary.

### Supplemental Educational Services (SES) Provider Summaries 2011

### To schools in second and subsequent years of school improvement status:

The summaries of the providers' information are organized by areas of the state. This section includes those that will serve all districts/LEAs in the state. Copy this whole section into your document to send to parents. Then go to the regional sections and choose the providers who will serve your district/LEA and include those summaries in the parents' document. You must inform eligible parents of all providers who are approved to serve all districts/LEAs and your district/LEA.

**To Parents:** Summaries of services offered by the state's approved Supplemental Educational Services (SES) providers for after-school tutoring are included below. If you have questions about a program or other information given by the providers, contact the building principal or other district contact person provided in the SES letter. **NOTE:** Evidence of Effectiveness is often based on the provider's own assessments.
